

Bloc Blinds Motorised Specification Sheet

The Motorised Range by Bloc Blinds brings safety, simplicity and sophistication into your home. Manufactured using only the highest quality components and engineering techniques.

Available on a range of blinds, suitable for both home users and commercial projects, you are sure to find the system to suit your needs.

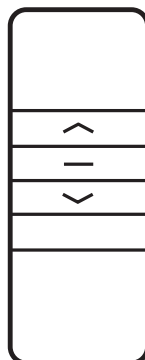

Why choose our Motorised Range?

- **Safe by design:** Choosing a motorised blind system eliminates the requirement for a chain or cord, making them safe for kids.
- **Easy DIY installation:** Our motorised range is easy to install with no wiring meaning no electrical expertise is required. Simple installation and operating instructions mean your blind is installed and fully functional in no time.
- **Rechargeable Battery Tube:** Built in lithium batteries are designed to last around 6 months before simple overnight recharge is required.
- **Sounds good, looks good:** Our quiet motor is hidden inside the blind, meaning less glazing space is taken up by the motorised blind.
- **Easy to operate:** Our sleek 1 or 15 channel remote options are easy to set up and easy to use.

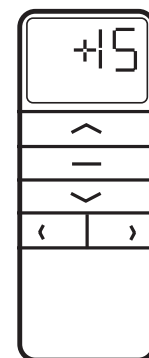

Control Options

You can control your blind with our sleek, lightweight remotes, which can be set up in no time. With a range of 35m the wireless remotes provide up, down and stop functions. The expected battery life of the remote is 2 years.

1 Channel Remote – Will control up to 20 blinds simultaneously

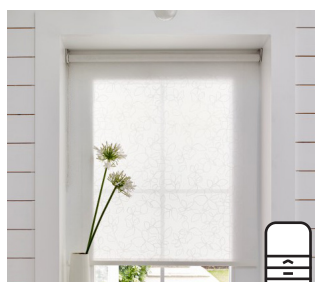

15 Channel Remote – Will control up to 20 individual and groups of blinds independently or altogether.

Products available in the Bloc Blinds Motorised Range

Roller Blinds

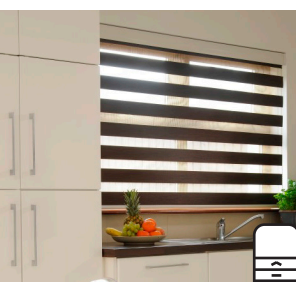

Premium Roller Blinds

BlocOut XL

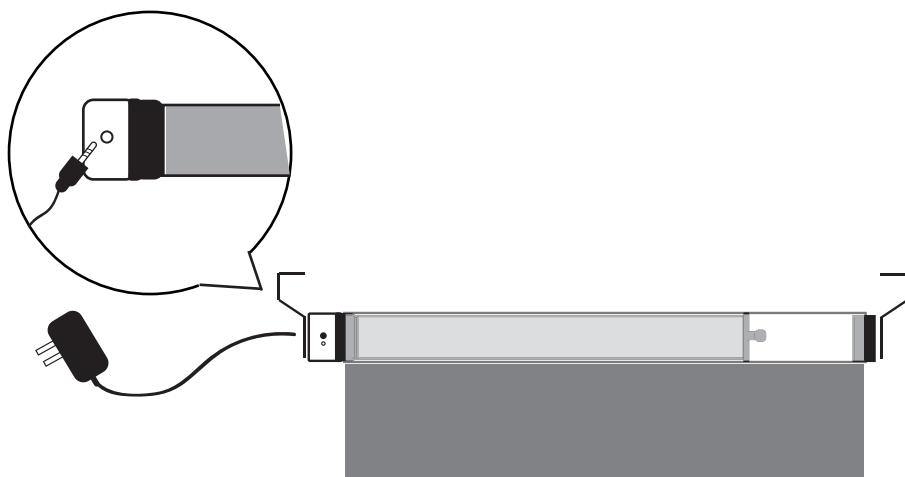

Zebra Blinds

Solar Skylight Blinds

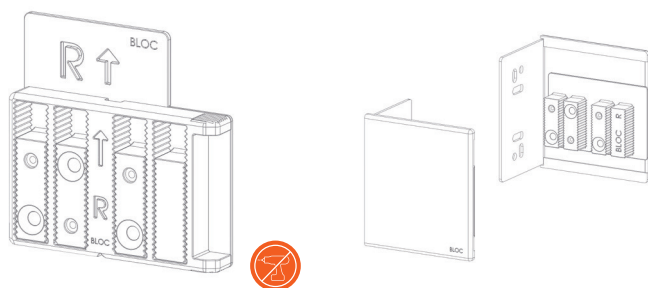

Our built-in rechargeable motors come with a charger with a cable of 1m, plus an additional extension cable of 3m. They are designed to have enough charge to last 6 months, before a simple overnight charge is required.

The solar skylight will charge during the daylight hours. Even in the event of no sunlight the battery will last 6 months.
